Designed as the ultimate protective eyewear, the Asian Locust Goggle is engineered for Asian face morphology and builds upon the Desert Locust's unmatched ability to protect soldier's eyes. The Asian Locust combines the high-impact protection of the Desert Locust lenses with a perfect facial and helmet fit, balancing the soldier's need for comfort with well-sealed eye protection. The high performance OcuMax™ coating prevents fogging and scratching to ensure clear vision while the optically correct goggle lens is engineered to maximize field-of-view and provide unprecedented visual clarity.

THE ASIAN LOCUST GOGGLE SYSTEM

- **HIGH-IMPACT PROTECTION** One-piece, optical grade polycarbonate lens shields eyes from unexpected fragments
- **CLEAR VISION** High performance OcuMax™ coating protects against fogging and scratching. Top & lateral forced air vents provide constant airflow. Filtration media prevents small particle entry
- **LENSES** 100% protection from harmful UV-A, UV-B and UV-C rays. Optically correct lenses can be interchanged quickly for various light conditions
- **FIELD-OF-VIEW** Widest field-of-view to enhance war fighting capabilities
- **DURABILITY** Superior anti-scratch hard coating; designed for use in extreme climatic conditions. Resists a wide variety of chemicals
- **COMFORT & FIT** Lightweight and comfortable, the Asian Locust frame provides an optimized fit for the Asian face profile and is ideal for both tactical operations and extended-use missions. Pliable frame material and strapping system seals the face while maximizing facial comfort
- **COMPATIBILITY** Low profile design ensures compatibility with helmet, binoculars and night vision systems
- **ADJUSTABILITY** Adjustable strapping system fits over the helmet, or on head
- **PRESCRIPTION READY** Optional Rx insert is also compatible with Revision Sawfly® Spectacles and Bullet Ant® Tactical Goggles

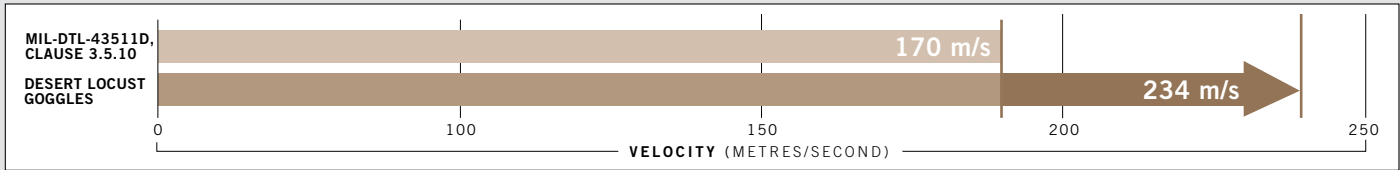

ASIAN LOCUST OFFERS EXTREME PROTECTION

- CE certified in accordance with EN 166, EN 170 and EN 172
- ANSI Z87.1 Standard
- Exceeds U.S. military eyewear ballistic impact resistance requirements (MIL-DTL-43511D, clause 3.5.10 and MIL-PRF-31013, clause 3.5.1.1)
- V50 of 243 m/s when tested to Stanag 2920 using a 0.325 g FSP
- CAGE Code: 30VZ5

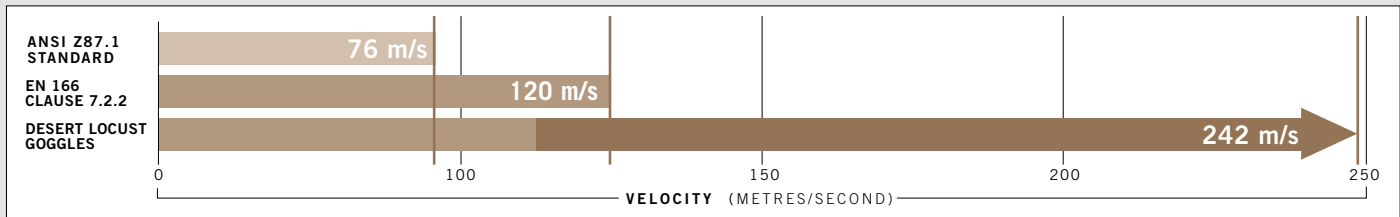

BE REVISION READY.™

DON'T RISK YOUR VISION... 90% OF EYE INJURIES ARE PREVENTABLE WHEN USING IMPACT RESISTANT EYEWEAR.
 The Desert Locust best-in-class protection surpassed other eyewear in rigorous impact testing, both in the lab and in the field.

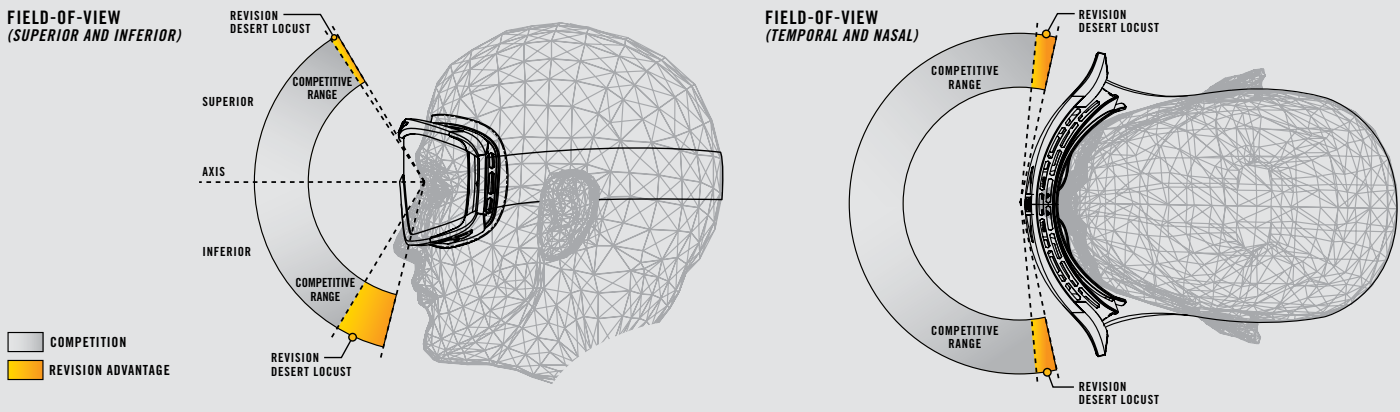

0.22 CALIBER, 17 GRAIN PROJECTILE. LAB TESTING PERFORMED IN REVISION EYEWEAR'S BALLISTIC TESTING CHAMBER, May2009. All tests performed on Asian Locust Goggle.

1/4" STEEL BALL. LAB TESTING PERFORMED IN REVISION EYEWEAR'S BALLISTIC TESTING CHAMBER, OCTOBER 2006.

REVISION'S FIELD-OF-VIEW ADVANTAGE

ALL LENSES PROVIDE 100% UV-A, UV-B AND UV-C PROTECTION. LENSES INTERCHANGE EASILY WITHOUT ANY TOOLS.

- CLEAR LENS Maximizes light transmittance. *Use indoors or at night.*
 - SOLAR LENS Reduces extreme glare and squinting. *Use outdoors in bright conditions.*
 - HIGH-CONTRAST LENS Provides crisp definition in low-light conditions. *Use during dull, cloudy or hazy conditions.*
- Laser and other specialty lenses available by special order.*
