Desert Locust® Goggle PDQ™ Quick Release System

When eye protection must be “at-the-ready” for fast moving and dynamic conditions, the **Desert Locust Goggle PDQ Quick Release System** meets the challenge. Designed by Special Force Operators, the patented PDQ System allows the wearer to singlehandedly and quickly don or doff the Desert Locust Goggle, depending on the users’ visual and protection requirements. The PDQ is an alternative to a conventional strapping system and is proven to provide functional, comfortable, goggle / helmet integration and operator equipment compatibility.

This unique system is comprised of a NODS-mount compatible “Halo” ring which encircles the perimeter and securely attaches to the helmet. Additionally, left and right straps attached to the Desert Locust Goggle are designed to securely attach by Velcro® to the Halo ring. The PDQ’s ambidextrous Velcro® break-away allows the user to immediately separate the goggle from the face and out of the way, while still retaining the Desert Locust at-the-ready. Tried and fielded by U.S. Special Operators and other military forces alike, the PDQ is a combat tested system which meets the needs of those in rapidly changing environments.

PDQ FEATURES AND BENEFITS

- **HELMET COMPATIBLE** Compatible with all helmet types and sizes
- **ONE-HANDED OPERATION** Velcro break-away ensures easy don and doff of Goggle
- **NODS EQUIPMENT COMPATIBLE** Accommodates helmet mounted Night Observation Devices
- **SECURE HELMET MOUNTING SYSTEM** Desert Locust Goggle and PDQ system mount securely to the helmet to ensure system is “at-the-ready”
- **NAME TAPE & IR FLAG COMPATIBLE** Accommodates removable soldier ID nametape and IR Flag
- **EASY STOWAGE** Desert Locust Goggle with PDQ stows on the helmet when not in use
- **FLAME RESISTANT MATERIALS** Reduces risk of ignition in extreme environments
- **EASY CLEANING** Hand or machine washable for easy cleaning
- **100% U.S. MADE** Buy American & Berry Amendment-Compliant
