REVISION DESERT LOCUST® GOGGLE WINS SECOND MAJOR EUROPEAN TENDER WITH NETHERLANDS CONTRACT

London, UK (May 22, 2009) – Revision Eyewear, leading manufacturer of ballistic protective eyewear worldwide, has been awarded a contract for 10,600 Desert Locust Goggles by the Netherlands Defence Material Organization (DMO). Winning the second major European goggle contract awarded in the last two years, Revision continues to position itself as the end-user and program-level protective eyewear of choice, surpassing all other eyewear in evaluation criteria such as soldier feedback, technical compliance, compatibility with service equipment and overall best value.

“Receiving the Netherlands contract is an honor,” says Alex Hooper, Revision Eyewear’s Vice-President of International Sales. “In addition to the features of the standard Desert Locust Goggle, such as interchangeable optically flawless lenses, widest field-of-view, superior defence against fogging and scratching, and the flexible, virtually indestructible frame, the Desert Locust Goggle will feature special customizations including a quick release buckle and gripper strap for secure over-helmet fit.”

Having previously purchased nearly 40,000 sets of Revision Sawfly® Spectacles, The Netherlands DMO is familiar with the consistent quality, workmanship, ballistic and field performance of Revision Eyewear products. The fact that one Rx insert can be used in both the Sawfly Spectacles and the Desert Locust Goggles is a definite advantage for those soldiers who require vision correction to perform at their best. Revision’s international success in other markets, such as the U.S., Canada and its 2008 win of the Swiss Armed Forces (Armasuisse) goggle contract, further cements its position as the protective eyewear of choice for NATO and European countries. All of these factors are believed to have

BE REVISION READY™

played a role in the Netherlands' current selection of the Revision Desert Locust for their goggle requirements.

ABOUT REVISION

Revision Eyewear develops purpose-built eyewear for military, law enforcement and tactical clients worldwide. Revision products deliver the highest standards of protection, optical clarity, durability, compatibility and comfort. Major clients include all services within the U.S. Military, the Canadian Department of National Defence, the Belgian Ministry of Defence, the Swiss Department of Defence, and the Netherlands Armed Forces. Privately owned and ISO 9001:2000 certified, Revision's operational facility is located in Essex Junction, Vermont, USA, with additional offices in the U.K., Germany and Canada. For additional information, visit www.revisioneyewear.com, write info@revisioneyewear.com, or call +1 603.436.1748.

The Revision Desert Locust Goggle features the broadest field-of-view and high-impact, interchangeable lenses for protection from fragments, harmful ultra-violet rays and climatic conditions. Frames are available in Black, Olive Green, Tan and Foliage Green. Specialty and laser protective lenses are available.
