REVISION EYEWEAR INTRODUCES SUPERIOR FOG PROTECTION WITH THE DESERT LOCUST® FAN GOGGLE

Essex Junction, VT, USA (January 11, 2010) – Revision, leading developer of ballistic protective eyewear for military and law enforcement forces worldwide, provides superior anti-fog performance with the new Desert Locust Fan Goggle. The goggle's robust, energy efficient and near-silent fan is resistant to dust and moisture for continuous operation in even the harshest environments. The system's weather-resistant battery casing provides exceptional life for mission performance, operating using a single AA battery for easy field replacement.

The Desert Locust Fan Goggle offers an unrestricted field-of-view and flawless optics, ensuring clear and accurate vision. High performance OcuMax® coated lenses offer additional protection against fogging and scratching while the goggle's low-profile design ensures compatibility with helmets, night vision systems and binoculars.

"The Desert Locust Fan Goggle provides operators with an energy efficient, weather-resistant and, most of all, near-silent fan system to provide anti-fog protection in extreme temperatures or during intense physical activity," Jonathan Blanshay, CEO of Revision Eyewear explained.

The Desert Locust Fan Goggle's level of high-impact protection surpasses ANSI Z87.1 and military requirements (MIL-DTL-43511D clause 3.5.10). The Goggle is also certified in accordance with EN 166, EN 170 and EN 172. The Desert Locust Fan Goggle offers interchangeable lenses for various light conditions and specialty lenses are also available. An optional prescription (Rx) carrier, also compatible with Sawfly® Eyewear and the Bullet Ant® Tactical Goggle, is available for vision correction.

BE REVISION READY™

ABOUT REVISION

Revision develops and delivers purpose-built eye protection solutions for military and tactical clients worldwide. We are specialists in integration for the optimum and necessary balance of protection and performance. To that end, we bring the most advanced expertise, state-of-the-art facilities and finest technical minds. Clients include the U.S. Department of Defense, the Canadian Department of National Defence, the Netherlands Defence Materiel Organization, the Swiss Federal Department of Defence and the UK Ministry of Defence, among others. Privately owned and ISO 9001:2008 certified, Revision’s operational headquarters is located in Essex Junction, Vermont, USA, with additional offices in the UK, Germany and Canada. For more information, visit www.revisioneyewear.com, write info@revisioneyewear.com, or call +1 603-436-1748.

Virtually-silent exhausting fan operates in harsh climates for continuous anti-fog performance.

Weather resistant battery casing operates using a single AA battery. The efficient tri-speed system provides exceptional life for mission performance.
